

## Beiträge in Zeitschriften (2019)

1. Prof. Dr. Jahn, Carlos: **The container terminal of the future Networked, intelligent, emission-free simply flowing**, In: Port of Hamburg Magazine, (März 2019), pp.33-35
2. Prof. Dr. Jahn, Carlos; Burmeister, Hans-Christoph; Hartmann, Andreas; Walther, Laura: **Mariners in the context of remote controlled tugs** In: European Journal of Navigation, Vol.10, pp.4-10.
3. Prof. Dr. Jahn, Carlos; Schulte, Britta; Walther, Laura: **Shore-side Assistance for Remote-controlled Tugs** In: Compit, No.2, pp.274-285.
4. Prof. Dr. Jahn, Carlos; Burmeister, Hans-Christoph; Scheidweiler, Tina; Reimann, Maximilian: **Assessing Maritime Safety Effects of Maritime Digitization with the European Maritime Simulator Network EMSN: The Sea Traffic Management Case**, In: TransNav'2019
5. Prof. Dr. Jahn, Carlos; Lange, Ann-Kathrin; Grafelmann, Michaela; Schwientek, Anne: **Effizientes Tauschen der Zeitfenster von Transportaufträgen in Truck Appointment Systems**, In: ASIM 2019 Proceedings, pp. 295-304
6. Prof. Dr. Jahn, Carlos; Lange, Ann-Kathrin; Schwientek, Anne: **Influence of TAS Characteristics**, In: Simulation Notes Europe, (09.2019), pp. 137-140
7. Prof. Dr. Jahn, Carlos; Lange, Ann-Kathrin; Schwientek, Anne: **Potential of Non-port Slot Booking Systems for TAS**, In: Hamburg International Conference of Logistics, (09.2019), pp. 137-162
8. Prof. Dr. Jahn, Carlos; Weigell, Jürgen; Deshpande, Anish: **Simulation Model for the Installation of semi-submersible Foundations for Floating Offshore Wind Turbines**, In: ASIM 2019 Proceedings, pp. 541-550
9. Prof. Dr. Jahn, Carlos; Kastner, Marvin; Pache, Hannah: **Simulation-based Optimization at Container Terminals: A Literature Review**, In: Digital Transformation in Maritime and City Logistics, pp. 111-135
10. Prof. Dr. Jahn, Carlos; Kastner, Marvin; Pache, Hannah: **Current State and Trends in Tramp Ship Routing and Scheduling**, In: Hamburg International Conference of Logistics, (09.2019), pp. 369-394
11. Prof. Dr. Jahn, Carlos; Kastner, Marvin; Nellen, Nicole: **Model-based Optimisation with Tree-structured Parzen Estimation for Discrete Event Simulation at Container Terminals**, ASIM 2019 Proceedings, pp. 1-10
12. Prof. Dr. Jahn, Carlos; Scheidweiler, Tina: **Business Analytics on AIS Data: Potentials, Limitations and Perspectives**, In: Hamburg International Conference on Logistics, (09.2019), pp. 340-368

13. Prof. Dr. Jahn, Carlos; Scheidweiler, Tina; Burmeister, Hans-Christoph; Hübner, Sören: **Dynamic 'Standing Orders' for Autonomous Navigation System by means of Machine Learning**, Journal of Physics: Conference Series, pp.1-9
14. Burmeister, Hans-Christoph; Oeffner, Johannes; Shetty, Srikant; Walther, Laura: **MASS Technology Development by Means of SHS\_ICMASS Proceedings** In: International Conference on Maritime Autonomous Surface Ships pp. 7-46.
15. Burmeister, Hans-Christoph: Schiffsemissionen: **Vom politischen Ziel zur Compliance-Bewertung**, In: Schiff und Hafen No.12, pp. 44-45
16. John, Ole; Reimann, Maximilian; Thießen, Dennis: **Intelligente Spracherkennung mit peilgestützter Schiffsidentifikation**, In: Schiff und Hafen No. 10, pp. 52-53
17. Kretschmann, Lutz: **Mehr Effizienz mit Daten statt Design**, In: HANSA International Maritime Journal No. 8, pp. 60-62
18. Kretschmann, Lutz: **A machine learning approach for calculating leading maritime risk indicators**, In: World of Shipping Portugal Proceedings, pp. 1-19
19. Scheidweiler, Tina: **Nautische Seeverkehrsdatenanalyse Effizienz- und Sicherheitssteigerung**, In: Schiff und Hafen No. 6, pp. 20-21.
20. Schneider, Vincent Emanuel: **Autonome Erfassung von Unterwasserdaten**, In: Schiff und Hafen Maritim 4.0, No.5, pp. 14-15
