

## Beiträge in Zeitschriften und Sammelwerken (2015)

Brümmerstedt, Katrin; Flitsch, Verena (2015): Freight transport modeling of container hinterland supply chains. In: Blecker, Thorsten; Kersten, Wolfgang; Ringle, Christian M. (eds.): Operational Excellence in Logistics and Supply Chains, HICLS 2015, S.234-266.

Brümmerstedt, Katrin; Flitsch, Verena; Jahn, Carlos (2015): Cost Functions in Freight Transport Models. In: Blecker, Thorsten; Kersten, Wolfgang; Ringle, Christian M. (eds.): Operational Excellence in Logistics and Supply Chains, HICLS 2015, S. 267-294.

Burmeister, Hans-Christoph; Bruhn, Wilko; Walther, Laura (2015): Interaction of Harsh Weather Operation and Collision Avoidance in Autonomous Navigation. In: TransNav Vol. 9, No. 1, S.31-40.

Burmeister, Hans-Christoph; Rødseth, Ø.J.(2015): Risk Assessment for an Unmanned Merchant Ship. TransNav, the International Journal on Marine Navigation and Safety of Sea Transportation. Vol. 9, No. 3. S. 357-364.

Fiedler et. al. (2015): Impact of Transport Infrastructure Investment on International Competitiveness. In: Impact of Transport Infrastructure Investment on International Competitiveness. Singapore Economy Review Conference. Singapore, 05.08.2015.

Fiedler, Ralf (2015): The next LNG hotspot? In: European LNG Outlook, 2/2015.

Jahn, Carlos; Lange, Ann-Kathrin (2015): Simulation at Seaport Terminals. In: Francesco Salvatore, Riccardo Broglia und Roberto Muscari (Hg.): Marine 2015. VI International Conference on Computational Methods in Marine Engineering. Rome, Italien.

Jahn, Carlos; Lange, Ann-Kathrin; Pirovano, Giovanni; Rossi, Tomasso (2015): Meta-Modellierung und Werkzeug-Integration in der Simulation von Seehafen Container-Terminals. In: Rabe, Markus; Clausen, Uwe (eds.) (2015): Simulation in Production and Logistics 2015. Stuttgart, Fraunhofer IRB Verlag, S. 187-196.

Jahn, Carlos; Münsterberg, Torsten (2015): Offshore-Windenergie - Kostensenkung durch Logistiksimulation. In: Rabe, Markus; Clausen, Uwe (eds.) (2015): Simulation in Production and Logistics 2015. Stuttgart, Fraunhofer IRB Verlag.

Töter, Svenja; Froese, Jens (2015): Die Straße als Bottleneck im Hafenhinterland. In: Schifffahrt Hafen Bahn und Technik (4), S. 84-85.

Münsterberg, Torsten; Jahn, Carlos; Hepp, Thorsten (2015): Simulation-based Evaluation of Operation and Maintenance Logistics Concepts for Offshore Wind Power Plants. DEWEK 2015 – 12th German Wind Energy Conference. Bremen, 19.05.2015.

Rizvanolli, Anisa; Burmeister, Hans-Christoph; John, Ole (2015): The Role of the European Maritime Simulator Network in Assessing Dynamic Sea Traffic Management Principles. TransNav, the International Journal on Marine Navigation and Safety of Sea Transportation, Vol. 9, No. 4, S. 559-564.

Walther, Laura; Lade, Terje; Jahn, Carlos (2015): Weather routing for a wind driven hybrid merchant vessel. OCEANS'15 MTS/IEEE. Genova, 15.05.2015.

Weigell, Jürgen; Münsterberg, Torsten; Jahn, Carlos (2015): Pooling- Strategien für Operation & Maintenance (O&M) von Offshore Windparks. Kongress der HTG 2015 – Hafenbautechnische Gesellschaft – Proceedings. Bremen, 10.09.2015.
